

Commencement 2024

One Hundred Forty-Eighth Year of the University

Folsom Field | May 9, 2024

University of Colorado **Boulder**

Norlin Charge to the Graduates

The first commencement at the University of Colorado was held for six graduates on June 8, 1882, in the chapel of Old Main. It was not until 40 years later, on September 4, 1922, that the first summer commencement was held. Since the first commencement in 1882, the University of Colorado Boulder has awarded more than 320,000 degrees. The traditional Norlin Charge to the graduates was first read by President George Norlin to the June 1935 graduating class.

You are now certified to the world at large as alumni of the university. She is your kindly mother and you her cherished sons and daughters.

This exercise denotes not your severance from her, but your union with her. Commencement does not mean, as many wrongly think, the breaking of ties and the beginning of life apart. Rather it marks your initiation in the fullest sense into the fellowship of the university, as bearers of her torch, as centers of her influence, as promoters of her spirit.

The university is not the campus, not the buildings on campus, not the faculties, not the students of any one time—not one of these or all of them. The university consists of all who come into and go forth from her halls, who are touched by her influence, and who carry on her spirit. Wherever you go, the university goes with you. Wherever you are at work, there is the university at work.

What the university purposes to be, what it must always strive to be, is represented on its seal, which is stamped on your diplomas—a lamp in the hands of youth. If its light shine not in you and from you, how great is its darkness! But if it shine in you today, and in the thousands before you, who can measure its power?

With hope and faith, I welcome you into the fellowship. I bid you farewell only in the sense that I pray you may fare well. You go forth, but not from us. We remain, but not severed from you. God go with you and be with you and us.

Land Acknowledgment

The University of Colorado Boulder, Colorado's flagship university, honors and recognizes the many contributions of Indigenous peoples in our state. CU Boulder acknowledges that it is located on the traditional territories and ancestral homelands of the Cheyenne, Arapaho, Ute and many other Native American nations. Their forced removal from these territories has caused devastating and lasting impacts. While the University of Colorado Boulder can never undo or rectify the devastation wrought on Indigenous peoples, we commit to improving and enhancing engagement with Indigenous peoples and issues locally and globally.

We will do this by:

- Recognizing and amplifying the voices of Indigenous CU Boulder students, staff and faculty and their work.
- Educating, conducting research, supporting student success and integrating Indigenous knowledge.
- Consulting, engaging and working collaboratively with tribal nations to enhance our ability to provide access and culturally sensitive support and to recruit, retain and graduate Native American students in a climate that is inclusive and respectful.

Front row: Nolbert Chavez, (D) District 7; Ken Montera, (R), Vice Chair, District 5; Lesley Smith (D), At Large; Ilana Dubin Spiegel (D) District 6.

Dear graduates:

One of the greatest honors for the University of Colorado Board of Regents, the institution's governing board, is to be part of this commencement ceremony. Your success is a success for us all. Your degree is a measure not only of an accomplishment of dedication and talent, but also notice to the world that you have the skill and discipline to contribute greatly to any endeavor you pursue.

Sincerely,

The Regents of the University of Colorado

This commencement ceremony, like every University of Colorado graduation since 1935, will close with the reading of the Norlin Charge. As originally expressed by former CU President George Norlin in 1935, graduation "marks your initiation in the fullest sense of the fellowship of the university, as bearers of her torch, as centers of her influence, and as promoters of her spirit." Welcome to the ranks of CU's alumni family of 475,000 graduates across all campuses since 1882. Congratulations on achieving this milestone. Well done and well earned!

The President of the University of Colorado

Congratulations, graduates!

Today marks a major milestone in your lives. With your University of Colorado degree, you're well-positioned for the future regardless of which path you choose from here. The entire CU community celebrates you and your achievement, and is rooting for your continued success.

You're now part of an extraordinary network of CU alumni making significant contributions to their communities, the state of Colorado, the nation and the world. As a fellow CU alum, I have experienced firsthand the transformative effects of a CU education. I know yours will serve you well.

All the best,

Todd Saliman
President
University of Colorado

Among the many things you've learned during your time at CU is the value of hard work, perseverance, being open to different perspectives, and self-awareness in achieving your goals. Throughout your educational journey you've also undoubtedly benefited from others' support. I urge you to pay this forward. Helping others—in any capacity—is among the most rewarding things you can do in life, and it enables you to be a force of good in the world.

On behalf of the CU community, I wish you success and fulfillment now and in the years to come. Again, congratulations.

The Chancellor of the University of Colorado

Dear graduates,

Congratulations on earning your degree from the University of Colorado Boulder! The entire campus and the Boulder community celebrate alongside you on this momentous occasion.

Today marks the end of one era and the start of an exciting new chapter in your life. The curiosity, determination and courage you have developed during your years at CU Boulder will serve you well as you venture forward.

As you celebrate future successes and face inevitable challenges, I hope you will be encouraged to remember that you have already overcome and achieved so much. As your life unfolds in its own unique way, my hope is that

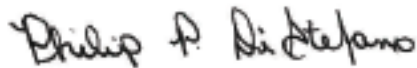

you will hold tight to honor, integrity and accountability, as the Colorado Creed reminds us.

Commencement is also an opportunity to acknowledge with gratitude the family, friends, educators, role models and supporters who have helped light your path. Today you join hundreds of thousands of alumni who will continue to light the way as you strive to leave a positive mark on humanity, across Colorado and around the world. Those who enter the community of Forever Buffs never roam alone.

May you savor each moment—today included—and find health, happiness and prosperity in all your endeavors.

Sincerely,

Philip P. DiStefano

Academic Dress

In 1895, U.S. colleges and universities adopted a uniform code governing academic dress. University of Colorado master's and doctoral degree recipients wear hoods lined with the university colors, silver and gold. The velvet border indicates the degree and usually follows the same code as the color of the tassels.

The Oxford cap, or mortarboard, has a long tassel fastened by a button on the top. Candidates for baccalaureate degrees wear the tassel over the right front

of the cap before the degree is conferred, and over the left thereafter. The color of the tassel on the bachelor's cap indicates the field of study, with the exception of the BA degree, whose candidates wear white tassels indicating the arts. Master's tassels are black, and doctoral tassels are gold. Read more about [Academic Dress](#) at CU Boulder, including details on the cords and stoles worn by our graduates.

The Presidential Chain of Office and the University Mace

The Presidential Chain of Office and the University Mace were created by Mary Sartor, MFA, University of Colorado Boulder. Both were gifts to the university by Mr. and Mrs. David G. Hawthorn, Class of 1924.

Colorado gold and silver are used in both pieces to symbolize the importance of these minerals to the history of the state. The chain's gemstones also consist entirely of minerals from Colorado.

The chain, created in 1980 for the inauguration of President Arnold R. Weber, holds three suspended pendants. The back pendant is the seal of the state of Colorado surrounded by a golden ribbon representing the golden circle of knowledge. The top pendant in the front is the seal of the University of Colorado surmounted by an arch set with diamonds and topaz, signifying the necessary link between the search for knowledge and its practical application to the world beyond the university.

At the center of the bottom pendant is a gold topaz indicating the quest for knowledge. The surrounding ring is inset with fragmented cubes and diamonds.

The University of Colorado Mace was created for the commencement ceremonies of May 1984. The foot of the scepter is encased in sterling silver bound in 14-karat gold, ending in an intaglio of the seal of Colorado. The shaft of the mace was carved from a black walnut tree thought to have been one of the saplings given to the settlers of the Colorado Territory by President Abraham Lincoln.

Sterling silver was also used in the crown, and the university seal is bound in gold and supported by an inner rod of gold surrounded by eight arching tapered silver ribs. At the base, the motto of the university, translated as Let Your Light Shine, encircles the crown in Greek characters. The wooden staff is bound at intervals in gold and silver rings.

The University Seal

In its history, the University of Colorado has used three different seals. The current seal, adopted in 1908, depicts a male Greek classical figure sitting in front of a pillar and holding a scroll. Next to the figure, laurel branches frame a burning torch. The inscription in Greek reads Let Your Light Shine. The seal's designer, Henry Read of Denver, chose the classical motif because Greek civilization stood as the criterion of culture. The laurel symbolizes honor or success; the youth suggests the morning of life; and the scroll represents written language.

From 1893 to 1908, the university seal was a copy of Wyon's medallion, Science Trims the Lamp of Life. In this version, a Greek woman knelt before a lamp, and stalks of mariposa lilies decorated the border. Before 1893, an adaptation of the Colorado state seal was used, but it was never adopted by the Board of Regents.

The seal is used primarily on official documents, such as diplomas and transcripts that have been issued on behalf of the university. The Board of Regents uses the seal on its official documents and publications. The seal also appears on the President's Chain of Office, the University Mace, regent regalia and various formal publications.

Pomp and Circumstance

Pomp and Circumstance is traditionally played in Canada, the Philippines and the United States as the processional tune during academic graduations. It was first played at a commencement on June 28, 1905, at Yale University, where the composer, Sir Edward Elgar,

received an honorary doctorate of music. The version enjoyed at the University of Colorado Boulder ceremonies is performed by faculty and students from our College of Music, and includes three different styles: jazz big band swing, Latin jazz and New Orleans "Second Line."

Commencement Speaker

Steve Wozniak, co-founder of Apple and a technology entrepreneur and philanthropist for more than 40 years, will deliver the 2024 Commencement address.

Wozniak attended CU Boulder in 1968–69 before returning to California, where he co-founded Apple Computer Inc. with Steve Jobs in 1976. He holds an honorary doctorate in engineering, conferred in 1989, from CU Boulder, where two of his children attended college.

Wozniak helped shape the computing industry with his design of Apple's first line of products, the Apple I and II. The Apple II model was integral in launching the personal computer industry. Wozniak is listed as the sole inventor on four Apple patents.

Through the years, Wozniak has been involved in various business and philanthropic ventures, focusing primarily on computer capabilities in schools and encouraging creativity for students. He adopted the Los Gatos School District, providing students and teachers with hands-on teaching and donations of state-of-the-art technology.

He founded the Electronic Frontier Foundation and was the founding sponsor of the Tech Museum, Silicon Valley Ballet and Children's Discovery Museum of San Jose, California.

Wozniak has been honored with the National Medal of Technology, inducted into the Inventors Hall of Fame and received the Hoover Medal, given for "outstanding extra-career services by engineers to humanity." In addition, he was inducted into the IndustryWeek Manufacturing Hall of Fame.

During it all, Wozniak has delivered thousands of talks and fireside chats, inspiring the next generation of entrepreneurs and engineers.

He lives in Los Gatos, California, with his wife, Janet, and their four dogs: Ziggy, Zelda, Jewel and Wozzie.

Honorary Degrees

Marvin Caruthers

Doctor of Humane Letters

During his 51-year career at CU Boulder, Marvin Caruthers has elevated the university through groundbreaking scientific discoveries, transformative leadership and generous donations.

A Distinguished Professor of chemistry and biochemistry, Caruthers developed an efficient, automated technology for synthesizing DNA. Today, his discoveries have enabled genetic sequencing, drug and vaccine development, pathogen tests, cancer diagnostics, and many aspects of basic biomedical research.

In recognition of his revolutionary research, he received the National Medal of Science in 2006 and was inducted into the National Inventors Hall of Fame in 2018. In 2023, he received the first Richard N. Merkin Prize in Biomedical Technology to honor how his work has demonstrably improved human health. Caruthers has formed several biotechnology companies that have helped transform

Boulder. In 2022, *BizWest* recognized him as one of Boulder Valley's most iconic business figures of the last 40 years.

Caruthers is also a generous donor who has bolstered collaborative research on campus. He gave \$20 million toward the Jennie Smoly Caruthers Biotechnology Building, which now houses the BioFrontiers Institute, the Department of Chemical and Biological Engineering and the Department of Biochemistry. His donations have also helped the Departments of Chemistry and Biochemistry recruit some of the world's best chemists.

In recognition of his lasting contributions to the university, science and the public good, the Board of Regents is pleased to award Marvin Caruthers the honorary degree Doctor of Humane Letters, *honoris causa*.

Ann Smead

Doctor of Humane Letters

Ann Smead's continued support of CU Boulder has helped strengthen Colorado's aerospace economy and grow the university's aerospace engineering program into one of the best in the country.

Smead built a distinguished career as an engineer, executive and educator. She was a pioneering female professional in systems engineering before going on to excel in real estate ventures, becoming a partner and leader in property management. She shared her knowledge by teaching real estate financial analysis at schools throughout the United States and Eastern Europe.

With support totaling more than \$15 million, she and her husband, Michael Byram, established CU Boulder's Smead Fellows Program in 2006 to support the aerospace engineering studies of two new doctoral students annually. Their generous gifts also helped establish the Smead Endowed Chair of Space

Technology; the Michael M. Byram Distinguished Visiting Professorship; and two Smead Faculty Fellowships for promising midcareer faculty.

To celebrate their support, CU Boulder named the Department of Aerospace Engineering after Ann Smead and her late husband, H.J. "Joe" Smead, a CU Boulder engineering alumnus.

Ann Smead is also well known for her leadership in her Vail Valley community. She served as the chair of the Vail Mountain School Board of Directors and the board chair of the Vail Valley Foundation. She received the Walking Mountain Science Center's Reach of the Peak award in 2016 for her support of environmental education for children in the Vail Valley.

In recognition of her passionate advocacy for faculty and students at CU Boulder and beyond, the Board of Regents is pleased to award Ann Smead the honorary degree Doctor of Humane Letters, *honoris causa*.

University Medals

Jane Butcher

Jane Butcher has dedicated more than 50 years of her time, talent and support to CU Boulder.

Butcher graduated from CU Boulder in 1966 with a degree in international affairs. She began volunteering for the Conference on World Affairs as a student and continued to help drive the event's success for four decades, serving as a former co-chair and member of the conference committee.

She and her late husband, Charlie, shared a passion for the potential of bioscience and biotechnology to improve human lives. They established the Butcher Symposium and Seed Grant programs with a founding gift of \$1.1 million to facilitate and showcase the revolutionary scientific research being done on campus.

Butcher was one of the original members of the BioFrontiers Scientific Advisory Board, on which she continues to serve today. A current member of the

CU Foundation Board of Trustees, she also served on the Dean's Advisory Board for CU Boulder's College of Arts and Sciences. In 2005, she received CU Boulder's Alumni Recognition Award to honor her contributions to the university.

She has also been a cornerstone of the Boulder community. She has served on the boards for the Local Theater Company, the Boulder Community Health Foundation, the Boulder Library Commission, the Chautauqua Association and the Colorado Music Festival. She was also co-founder and president of the Women of the West Museum, now part of the Autry National Center.

For her leadership, activism and passion within the CU Boulder community, the Board of Regents is pleased to award the University Medal to Jane Butcher.

Richard Rokos

In Colorado, you can't think about competitive skiing without thinking about Richard Rokos. One of CU Boulder's most accomplished head coaches of all time, Rokos grew the ski team into the premier ski program in the country.

After fleeing communist Czechoslovakia in 1980, Rokos found asylum in the United States. He was working as an assistant for CU Boulder's ski team when he became head coach in 1990.

The Buffs won a team title in Rokos' first season, giving the program its first national title since the sport went coed in 1983. He went on to lead the team to 31 NCAA appearances—every season he coached—and seven more national titles.

The United States Collegiate Ski Coaches Association named Rokos the National Coach of the Year on five different occasions, and *Rocky Mountain News* gave him the "Top of the Rocky Award" after he was voted the

region's top college coach. He has been inducted into the CU Athletic Hall of Fame and the Colorado Ski & Snowboard Hall of Fame.

Rokos is credited with bringing unification and camaraderie to a largely individual sport. During his tenure, the men's and women's ski teams regularly achieved grade-point averages upwards of 3.5, both for individual semesters and cumulatively. His 250 student-athletes attained a 95% graduation rate. The mentorship of his athletes has also included officiating the weddings of more former CU Boulder skiers than he can count.

For his dedication to the success of CU Boulder and the well-being of its student-athletes, the Board of Regents is pleased to award the University Medal to Richard Rokos.
